

MATHEUS SILVA DE CARVALHO

Senior Web Developer

+17347260347 @prohudong0718@gmail.com Itaberaba, Brazil

SUMMARY

I am a highly skilled and experienced senior web developer with a passion for creating dynamic and user-friendly websites. With over 5 years of experience, I have a deep understanding of various web technologies and frameworks. With my experience in front-end development, I am adept at leveraging React and Vue to build dynamic and interactive components leveraging a wide range of libraries and tools. I have also a deep understanding of backend technologies such as Java Spring Boot, Python, and Node.js. I am proficient in designing and implementing efficient databases using SQL and NoSQL solutions. My expertise extends to RESTful API development and integration, ensuring seamless communication between various components of the application. Through my career, I have successfully delivered complex projects, meeting strict deadlines and exceeding client expectations. With a keen eye for detail, I strive for clean and maintainable code to ensure long-term project success. Let's collaborate to bring your web development goals to fruition.

EXPERIENCE

Senior Web Developer 03/2022 - 09/2023
INFINI IT Porto Alegre, Brazil

Founded in 2009, Infini IT is an IT managed services and other IT consulting and SI company. Their small team is located in Porto Alegre, Brazil. Their services include IT managed services and other IT consulting and SI.

As a Senior Web Developer at this company, I led the design and development of complex backend systems using a diverse tech stack including Spring Boot, Node.js, and Python. Leveraging Spring Boot's powerful features, I spearheaded the creation of high-performance microservices, ensuring seamless communication between various components of our applications. This role also involved optimizing database queries and implementing caching mechanisms to enhance overall system efficiency. Concurrently, on the frontend, I played a pivotal role in architecting user interfaces using cutting-edge technologies like React, Vue, and TypeScript. This allowed for the creation of interactive and user-friendly applications, ensuring a seamless end-user experience.

Backend Developer 08/2020 - 03/2022
SAFEWAY Sao Paulo, Brazil

Safeway, a cybersecurity company, was founded in 2007. In Sao Paulo, Brazil, their midsize team focuses on cybersecurity, IT managed services, and other IT consulting and SI. During my tenure at this company, I had the privilege of contributing to a dynamic and innovative team as a backend developer. I played a key role in architecting and implementing robust backend systems using a variety of technologies, including Spring Boot, Node.js, and related frameworks. This experience afforded me the opportunity to tackle diverse challenges, from building microservices for high-traffic applications to optimizing database queries for improved performance. Collaborating closely with cross-functional teams, I participated in agile development cycles, ensuring seamless integration of backend components with the overall system.

SKILLS

React · Vue.js · Angular · Next.js ·
Typescript · Java · Spring Boot ·
Spring Security · Asp.net · Python ·
Django · React Native · Flutter · PHP ·
Laravel · MySQL · PostgreSQL ·
MongoDB · Webflow
