## Profile

---

I am a highly skilled and experienced senior web developer with a passion for creating dynamic and user-friendly websites.

With over 5 years of experience, I have a deep understanding of various web technologies and frameworks.

With my experience in front-end development, I am adept at leveraging React and Vue.js to build dynamic and interactive components leveraging a wide range of libraries and tools.

I have also a deep understanding of backend technologies such as Java Spring Boot, Python, and Node.js.

I am proficient in designing and implementing efficient databases using SQL and NoSQL solutions.

My expertise extends to RESTful API development and integration, ensuring seamless communication between various components of the application.

Through my career, I have successfully delivered complex projects, meeting strict deadlines and exceeding client expectations.

With a keen eye for detail, I strive for clean and maintainable code to ensure long term project success.

Let's collaborate to bring your web development goals to fruition.

## Professional Experience

---

March 2022 –  
September 2023

### **Senior Web Developer, INFINI IT**

- Led the end-to-end development of complex web applications as a Senior Full Stack Developer, employing a diverse skill set encompassing technologies such as React.js, Spring Boot and Python Django.
- Implemented best practices for code quality and maintainability, resulting in a significant reduction in bug reports and improved overall system stability.
- Collaborated closely with cross-functional teams, translating business requirements into technical solutions and ensuring the successful and timely delivery of projects.
- Mentored junior developers, fostering a collaborative and knowledge-sharing environment to enhance the overall team skill set.

August 2020 –  
March 2022

### **Backend Developer, SAFEWAY**

- Engineered robust and scalable backend solutions as a Backend Developer, leveraging languages such as Node.js, Java and frameworks like MERN, Spring Boot.
- Implemented and maintained efficient database structures, optimizing data retrieval processes and enhancing overall system performance.
- Collaborated closely with cross-functional teams, translating project requirements into backend functionalities to ensure seamless integration with front-end systems.

- Actively participated in code reviews, contributing to the enhancement of code quality, security, and adherence to best practices in backend development.

December 2019 –  
August 2020

#### **Frontend Developer, LEXART**

- Maintained and updated existing websites with new features and improvements using React, Node.js.
- Conducted usability testing and implemented changes based on feedback.
- Collaborated with team members on design and development projects.
- Worked with cross-functional teams to ensure seamless integration of front-end and back-end functionality.

November 2018 –  
December 2019

#### **Intern, PARA FERNALIA INTERATIVA**

- Developed and maintained various web applications using React, Node.js, jQuery, HTML5, CSS3, MySQL database.
- Developed responsive design that improved mobile usability by over 30%.
- Analyzed requirements to determine the best approach for developing new features or improving existing functionality.
- Documented all processes used within the development environment including coding standards, version control procedures, etc..

## Education

---

2014 – 2018

**Bachelor's Degree of Computer Science,** Universidade Federal da Bahia

## Skills

---

### **Frontend**

React, Vue.js, Angular, Next.js, Typescript

### **Mobile**

React Native, Flutter

### **Backend**

Java, Spring Boot, Asp.net, Python, Django, PHP, Laravel

### **Database**

MySQL, MongoDB, PostgreSQL

## Languages

---

English
